Mike Greenback – January 2010

I chose skiforce because of a few things. the recommendation by Jaz in the natives magazine, the website looked really professional, along with the rest of the Gapforce site, the date that the course started (because of my work commitments), and the staff sounded really enthusiastic and very helpful on the phone! (plus the Salomon gear swunged it a little bit!)

The course is brilliant, everyone is extremely helpful, the fact that everything is being sorted out for us, the marriage between Skiforce, TG Ski, and BASS is brilliant, all the trainers/coaches/instructors are extremely helpful, understanding, and very good at what they do, and the improvement in my and everyone else's skiing and knowledge is fantastic...I'm just loving it all!

I have a couple of favourite memories so far, getting to ski knee deep powder on one of the first days here has to be one, and then finally getting back into training and learning so much in such a beautiful place has to be another (even though that's a general ongoing memory).

Funniest moment...hmmm there's been soooo many! i think being made to promote Skiforce whilst being incredibly drunk from mutzig n jagerbombs, and dancing to Irish jig music...that was pretty funny! Then there's the obligatory joke telling/drinking game session that happens when u all first sort of meet...there's been so so many funny moments its pretty hard to choose!

My plans for the future are to complete this course, and just keep going! as cheesy as it sounds, this course is the start of the rest of my life, and so I've been told (on the quiet!!) if I work hard, I could have pretty much everything done in three and a half years or so! You can't complain about the office that's for sure!!!
